

## LABOR AN ISSUE BEFORE DEPUTIES. FIGHT IMMINENT

**Demand for Broader Sympathy  
With Workingman Causes  
Stir in Episcopal Convention.**

The spectacle of wealth arrayed against poverty and capital opposed to labor was presented to-day in the House of Deputies of the General Convention of the Episcopal Church meeting in the Old and New Synod Halls in the Cathedral of St. John

the Divine. The clash came when Rathbone Gardner, a lay deputy, offered a resolution calling on the Church to observe a broader platform in its relation to labor and labor interests and to extend to labor more courteous treatment.

Instantly there came a demand that the resolution be presented for immediate consideration. The issue was apparent. Had it been put to a vote there was sufficient strength in the meeting to kill the measure at once, without opportunity being given to its author to make public appeal in its interest. There was not quite sufficient strength, however, to put the scheme into operation and to the dismay of the exponents of wealth, the resolution was referred to the Committee on Social Service, which is composed of men known to be favorably inclined to the cause of labor.

In a long preamble the resolution recited that misunderstanding, injustice and hate existed in the relations of capital and labor and called on the church to require of its communicants, clerical and lay, a study of conditions "under which we are forced to live" to the end that sympathy, justice and understanding should supplant the present feelings.

### INJURED FIREMAN A STOIC.

**Run Over in Engine House, He  
Scarcely Hospital Bed.**

While Engine Company No. 18, located on One Hundred and Thirty-seventh street, near Seventh avenue, was responding to an alarm from One Hundred and Twenty-eighth street, the hitching strap on the hose carriage became unfastened. Michael Tracy, twenty-five years old, of No. 247 McLean avenue, jumped from the tender to fix the strap. His legs went under the wheels of the hose carriage.

Dr. Kahn was summoned from the Harlem Hospital and said that the fireman had a number of contusions and bruises, but that no bones were broken. Tracy refused to go to the hospital and was made comfortable in the engine house.

## STATE REFUSES TO PAY FOR DEFENSE OF ALLODS

**Martin W. Littleton, Who Pleaded  
for Senator, Will Lose  
\$6,000 Fee.**

The Board of Claims of the State of New York today disallowed the claim of \$6,000 made by Representative Martin W. Littleton against the State of New York for fees as attorney for Senator Jotham P. Allds in the latter's unsuccessful defense against charges of bribery made against him by Senator Conger in January, 1912. Allds, who was senator from the Thirty-seventh District and President pro tem. of the Senate, resigned on the day that he was found guilty by the Senate.

Not only will Congressman Littleton lose his fees, but the Board of Claims also disallowed the claims of Lewis E. Carr for \$5,521; Daniel E. Answorth, \$2,109; Albert E. Hamilton, \$28; Lewis E. Griffith, \$2,212; and David N. Carvalho, the handwriting expert, \$99.85. The aggregate of the claims disallowed was \$17,938. In its decision, a lengthy affidavit, the Board of Claims made the unequivocal declaration that a public servant cannot commit an act that is against the interests of the public and expect to be reimbursed for the expense he is put to in defending himself. Only in the event of his honorable acquittal could he ask the State to pay.

### WIRELESS MAN FINED.

**Unlicensed Amateur Operator First  
to Suffer Under New Law.**

Elmer B. Myers, charged with violation of the new act of Congress forbidding the operation of unlicensed radio stations, was quickly convicted after a general admission of the facts at a hearing in the United States District Court today. Judge Mayer imposed a fine of \$50, thus making the defendant the first actual victim of the new statute. The case will be appealed on the ground that the law is unconstitutional.

The apprehension of Myers was effected by Radio Inspector W. D. Terrill,

one of the Government's new "wireless Hawks." On the evening of June 13 last, not long after the wireless law went into effect, a station in New Jersey used by the radio inspector heard a message that ran:

"45 Adelphi street, Brooklyn, answer. Do you hear me? This is Elmer B. Myers, 23 West One Hundred and Third street, Manhattan. Answer. Do you hear me?"

Myers was immediately arrested and the station closed.

In the appeal to the higher courts

Myers will contend that the Government has no power to control the air and that the law, therefore, is unconstitutional.

### Serbia Calls Off Troops.

BELGRADE, Serbia, Oct. 20.—The Serbian Government today notified the European Powers that it had ordered its troops to withdraw immediately behind the Albanian frontier fixed by the Peace Conference held in London at the conclusion of the first Balkan War. This step complies with Austria's ultimatum.

## LEATHER FURNITURE

This yearly occasion begins tomorrow with an especially fine collection of Leather Furniture, which we can heartily recommend from every point of view.

The illustration gives an idea of the generous dimensions, the comfort and the luxury of the Furniture. It hints at the easy springs that are concealed beneath the soft upholstering, and at the stout frames that are put together by skilled cabinet-makers to last.

The leather is prepared by a special process which keeps it pliable, makes it permanent in color and prevents it from becoming greasy from heat. In three colors—red, brown and green. Special agreements with the makers produce these very exceptional savings:
